

# AMERICAN THEATRE ORGAN SOCIETY

January 29, 2007

To: All members of the American Theatre Organ Society  
From: Ken Double, President

Greetings:

A "Hello" to all members, and particularly to the Presidents of our Chapters. Twice in January I was privileged to perform programs that also included, for lack of a better term, a "town hall" style question-and-answer session for ATOS chapter representatives and members.

It was great to meet and greet those from LATOS, Orange County and the brand new Inland Empire Chapter while I was in Fullerton, CA. And more recently, members from EMCATOS and the surrounding area got together at Babson College.

My travels both in performing concerts and in broadcasting hockey games provides me a unique opportunity to meet with individual chapter representatives and talk about what is going on in ATOS right now! I was so encouraged by the kind words of EMCATOS President Bob Evans following our meeting at Babson College.

Communication with our chapters is the highest priority of this Board of Directors and if my hockey schedule puts me close to your chapter location, by all means, let's meet.

I am planning similar discussions in early April in Omaha, and later in the year in the mid-west. I will post my hockey schedule and concert schedule for the rest of the year to see if I can't me with your specific chapter. And in August, if I'm still in office, I'll post the new schedule and see if we can't continue what I think is a very positive opportunity for individual chapters to "get it from whichever end of the horse one deems appropriate" at the time.

Good luck with your respective individual endeavors. Plan on coming to New York City in July. And, I hope to meet with all of you very soon.

Sincerely,

Ken Double

President
