

**American Theatre Organ Society  
Convention Highlights CD Program  
Update as of June 14, 2020  
Prepared by Mark Renwick**

With respect to the 2019 convention highlights CD, all domestic and international purchases, as well as all artist complimentary copies, have been shipped. The CD is available through the ATOS Market Place. Despite production issues and delays, the final product turned out very well. Thanks, again, to Steve Ashley for going the extra mile to pull this off.

Prior to the postponement of the 2020 Annual Convention, arrangements had been made to record the convention performances.

Every year, convention CD sales run in the range of 100-130. Due to the low volume, on a net basis, the CD program costs ATOS around \$5,000 per year—that's \$5,000 per year in the hole.

Comments and suggestions are welcome.
