● I continue to store and maintain the ATOS files and records that were part of the ATOS Archives and sent to me from the University of Oklahoma. They are stored in five file cabinets and I have completed going through, sorting and indexing the many records I have on Chapters as well as Chapter Newsletters. I have started going through all of the file, organizing them and preparing a complete listing of materials. They are secure and available should information be required. They are also marked “ATOS Property”.

● I have also received files and documents from a very few Board Members for safeguarding and historical background. This should be the central point for the retention and storage of all inactive documentation. It will continue to be available for reference.

● Video interviews of theatre organ personalities have been completed on 49 individuals. Conventions provide the greatest source of persons for these interviews. These are posted on the internet YouTube for general use. The Indianapolis Convention will provide the opportunity for further interviews.
