Subject: ETONES Report to the Board and Staff

Etones has turned a corner in the last 6 months. The last issue recieved many compliments, questions, and answers. Hope everyone received their copy (if not please let me know). On paper Etones lost members, but actually gained some new members. I sent out the email and USP Names I received from Jack and even though it was over 450, all the list is now current. We are losing old members (had 6 email and 25 USP Returned) and with the up to date list, we now have 157 USP and approx 135 email names for the Etones Membership. It has taken me 2 and 1/2 years to finally get the list current, but it is there now. We had an increase of 39 members in the last year. I had some doubt about the future of Etones, but now I see a bright future ahead. We are now getting some articles, questions, discussion among our Members, I am pleased to say full steam ahead on the Etones for the future! bucky
