

Name of Activity:ETONES

Committee Chair/Officer Name: Bucky Reddish

Date of Report: 01-12-2010

1. Actions complete since the 2009 Annual Meeting:

Sent 8 Page Etones Issue in Dec for Email Members and Jan for US Post Office Members. The email members received a bonus article (4 Pages) from Jack Moleman's Archives--The History of the Electronic Organ. We now have approximately 475 members on the Email Edition and 150 on US Mail. Membership has increased by 40 members since the 2009 Meeting. At present working on the Spring Issue.

Also, I have asked Mike Hutcherson to help with the Etones as he is very experienced with E-Mail and Journal Issues.

2.Actions begun but incomple since the 2009 Annual Meeting:

Finished the late Fall/Early Winter Issue and now working on the Spring Issue

3.Goals to be reached by the 2010 Annual Meeting:

My biggest goal as always--get members to send in information. It is difficult to publish even twice a year without much input from the Etones Members. I am needing articles about organs, installations, special projects, questions members have that other members would like to know. Also another goal is to continue increasing membership.-we are growing every year with more and people wanting to join.

4.Amount budgeted for your committee \$500

Amount expended by your committee \$200

5.Comments: Having more involvement by members is critical to the contined success of the ETONES Newsletter. Any ideas from from other Board Members would be appreciated.
